Sponsorship Benefits

Becoming a TEDx sponsor provides multiple benefits. As a sponsor, you'll reach an expanded audience before the event, on the day of the event, and beyond. Sponsors are recognized in the press, on our website, and across our social media channels. However, the most significant recognition comes after the event and for years to come through online views.

Sponsorship offers the following **benefits** unique to TEDx:

Brand Exposure: Reach a diverse and influential audience through the TEDx platform, both at the live event and through online video distribution, significantly boosting brand awareness.

Thought Leadership: Align your company with a platform known for sharing impactful ideas, allowing you to showcase your expertise and position your brand as a leader in your field.

Community Engagement: Demonstrate your commitment to supporting local communities and fostering intellectual discourse by sponsoring a TEDx event.

Positive Brand Association: Associate your brand with the prestigious TED brand and the positive image associated with sharing ideas worth spreading.

Customizable Sponsorship Packages: Tailor your sponsorship level to fit your budget and desired engagement opportunities, including logo placement and event branding.

Nature of Request

The organizer and co-organizers of TEDx DelMar Youth currently work with youth to teach public speaking skills and are now providing a platform for youth to share their unique voices with the world. We are dedicated to helping youth share their message to create a better tomorrow.

About the TEDx Program

TEDx is a grassroots initiative created in the spirit of TED's (TED Talks) overall mission to research and discover "ideas worth spreading." TEDx brings the spirit of TED to local communities around the globe through TEDx events. These events are organized by passionate individuals who seek to uncover new ideas and share the latest research in their local areas that spark conversations in their communities. TEDx events include live speakers and are organized independently under a free license granted by TED. More than 3,000 events are now held annually. A TEDx event is a local gathering where live TED-like talks and performances are shared with the community. TEDx events are fully planned and coordinated independently on a community-by-community basis. The content and design of each TEDx event is unique and developed by each organizing team, but all events share these common features:

Diversity of topics: All TEDx events present multiple issues and diverse voices from many disciplines. After all, what's the fun without a little variety?

Community-driven and bias-free content: 100% volunteer. No one gets paid, not the organizer, the speakers, or the team that supports the event. Ticket sales cover the costs of the event, the largest of which is usually the venue; other costs include videography, insurance, and more. A TEDx event lacks any commercial, religious, or political agenda. Its goal is to spark conversation, connection, and community.

What a TEDx event is not:

A TEDx event isn't an industry or marketing conference. It isn't used to sell something.

A TEDx event is not organized by or for special-interest political, religious, or commercial groups.

A TEDx event is not a platform for professional or circuit speakers, such as motivational speakers and professional life coaches. Its purpose is to provide a platform to those who often do not have one.

A TEDx event is not focused solely on entrepreneurship, business, or technology.

THANK YOU!
